

Experience

WEBJUMP

Software Developer

Remote

Apr/2024 – Present

Responsibilities:

- Develop scalable web applications using **React.js, TypeScript, and Python (FastAPI)**.
- Build and maintain REST APIs supporting enterprise systems and high-volume data workflows.
- Implement user-facing interfaces integrated with **Adobe Experience Manager (AEM)**.
- Collaborate with cross-functional teams in an **Agile environment**, contributing to architectural and technical decisions.
- Improve system performance through refactoring, frontend optimization, and backend improvements.

Key Results:

- Contributed to the development of enterprise systems in the **oil and gas sector**, supporting operational efficiency and large-scale workflows.
- Helped deliver software solutions that contributed to **multi-million cost savings through automation and process optimization**.
- Improved application performance and user experience through structured frontend and backend optimizations.

Skills: React.js, TypeScript, HTML, Scrum, Java 11, PageSpeed, English-speaking environment ,Python, FastAPI, Claude AI;

Wise Systems

Full-Stack Developer

Remote

Aug/2023 – Apr/2024

Responsibilities:

- Developed backend services using **Python (Django)** and REST APIs.
- Built modern web interfaces using **React.js and Next.js**.
- Implemented authentication and access control with **Keycloak**.
- Collaborated with stakeholders to design and deliver scalable features.

Key Results:

- Migrated a legacy system to a web-based platform, improving accessibility and operational efficiency.
- Improved codebase maintainability through standardization and build automation.

Skills: Python, Django, React.js, Next.js, Docker, Keycloak, Ant Design, TypeScript, Prisma, Nest.js

Centro de Inovação EDGE

Front-End Developer

Remote

Nov/2022 – Oct/2023

Responsibilities:

- Refactored unstructured projects, promoting standardization, scalability, and reducing production bugs.
- Provided technical mentorship to junior developers and conducted continuous code reviews.
- Implemented reusable components with React.js and Redux, following sound architectural practices.
- Participated in Scrum rituals and tracked task progress.

Key Results:

- Significantly reduced bug occurrences post-deployment.
- Improved code maintainability and application stability.

Skills: React.js, Redux, TypeScript, Scrum, Code Review, Refactoring, Git, Azure Boards, Jest, Component-driven architecture, Proactive problem solving;

Oops Telecom
Full-Stack Developer

AL- Brazil
Sep/2021 – Nov/2022

Responsibilities:

- Created REST APIs and implemented hexagonal architecture using Go.
- Developed admin panels with Vue.js and Quasar Framework.
- Integrated Keycloak for secure authentication and access control.
- Trained internal users to ensure effective platform usage.

Key Results:

- Enhanced asset tracking of high-value equipment and improved company asset control.

Skills: Go (Golang), Vue.js, Quasar, Keycloak, Authentication, REST APIs, Hexagonal Architecture, Technical Support / Help Desk, JavaScript;

DIT - IFAL
Full-Stack Developer

Remote
Mar/2021 – Aug/2024

Responsibilities:

- Led frontend development using React.js and TypeScript.
- Designed REST APIs with Go, integrated with PostgreSQL and MongoDB.
- Coordinated frontend standards, documentation, and architectural improvements.
- Delivered scalable backend–frontend integrations.

Key Results:

- Reduced technical debt through structured refactoring initiatives.
- Improved system scalability and long-term maintainability.
- Delivered consistent full-stack features across multiple institutional systems.

Skills: React.js, TypeScript, Go (Golang), PostgreSQL, MongoDB, Scrum, Technical Documentation, TanStack, FastAPI;

Languages

English: Advanced – Excellent reading and writing skills; conversational speaking level.

Education

IFAL - Federal Institute of Alagoas
Bachelor's in Information Systems

AL- Brazil
2020 - 2023

- Participated in projects as a mobile lab monitor with React Native.
- Contributed to the institution's main development lab.
